SOFTWARE
HIGHLIGHTS

Tungsten Automation *Printix*

The Printix Managed Service Provider (MSP) Partner Program via Cranel enables partners to bundle Printix into their solutions and deliver value-added services to clients. The program also gives partners the flexibility to provision customer tenants on demand, making deployment simple and efficient.

Additional benefits of the MSP include:

- Tiered discounting that rewards MSP partners for their investment and growth
- Access to Printix sales, technical resources, tools, and best practices
- A complimentary Not-For-Resale (NFR) license for live product demonstrations
- A self-service Partner Portal to manage customer environments from a single view

With Printix, Cranel partners can retain margins, improve profitability, and manage more endpoints through efficient, cost-effective print management.

For more information, contact Cranel Sales, 800-288-3475.
