**Kodak i5000 Series Scanners**

**Kodak i5000 Series**

The Kodak i5000 series offers exceptional efficiency with its fast scanning speeds of up to 210 pages per minute, allowing businesses to process large volumes of documents quickly. Its intelligent image processing features, such as automatic cropping and blank page removal, help streamline workflows by reducing the need for manual adjustments. With a high-capacity feeder and reliable paper handling, the i5000 series ensures smooth, uninterrupted scanning, even for mixed document types and sizes.
