Compatible with Virtualized Environments

The Best Choice is Scriptel!

Our reliability, warranty, software, and support are unsurpassed in the eSignature industry.

Scriptel is the best choice for users!

Rugged Durability: *Glass Signing Surfaces*

Scriptel's LCD signing surfaces are actual glass providing a durable signing surface. Our non-LCD pads use a strip of hardened vinyl that can withstand millions of signatures.

The Competition?

Some of our competitor's low-cost pads use delicate resistive film that scratches easily and wears quickly even with normal use and conditions.

Industry Best Warranty: *RapidCare Overnight Exchange*

Scriptel pads include our 2- or 3-year overnight exchange program, called "RapidCare."

Under warranty, you will receive a replacement the next morning and we pay for return shipping on the failed pad. See scriptel.com/rapidcare

The Competition?

Requires their users pay for shipping defective pads back to the factory for diagnostics and repair, which could mean 2 or 3 weeks, or more.

Industry Best Service: *Domestic Support Team*

Scriptel's support team are knowledgeable in all aspects of our hardware and software products and strives to answer questions in real time.

The Competition?

Software vendors and former customers of our competitors have shared their experiences of 48-hour call back responses.

Industry Best Software: *Ind. Software Vendors prefer Scriptel!*

We offer 3 programming development toolkits for different environments:

- **ProScript** for Windows Desktop programs.
- **EasyScript** for Cloud and Browser-based apps.
- **OmniScript** for robust interactive Web solutions with added security and flexibility.

The Competition?

The competition's toolkits have been described by some former integrators as "antiquated and outdated."

Enabling a paperless future

ScripTouch[®] Review LCD

A large, high-resolution,
color device that displays
documents for review.

<https://scriptel.com/review-lcd>
