**Kodak alaris**

**Kodak Alaris Departmental Document Scanners**

Low volume production scanners from Kodak Alaris are ideal for streamlining document-heavy processes. Mission-critical information captured and extracted from paper is easier to archive, search for, find, share and use, enabling workers to make faster and more intelligent business decisions.

- **True network shareability** - Scanners can be securely accessed by any PC on a network
- **Built-in image processing** without relying on the CPU power of a workstation or PC
- **Perfect Page technology** - Automatically turns poor-quality originals into crisp, high-quality images while scanning at full-rated speeds
- **Large color touch-screen display** - Makes it easier to send documents to pre-defined capture workflows right from the scanner
- **Smart Touch Software** - Free to use and empowers users to distribute data where it's needed with the push of a button
- Enterprise-grade **Security Protocols** safeguard scanned images between host and scanner when scanning over the network
- **SurePath Technology** from Kodak Alaris ensures that paper is cleanly stacked, reducing the need to manually pre-sort documents, when paper varies in size, thickness, and weight

for Business

**STU**

**DTU**

1. STU is a signature display only
2. No charging needed and no data loss risk as no data is stored on the device
3. Used for signing checks and loan documents
4. Signing feels natural and signatures look accurate
5. The presence of the signatory ensures identity verification

1. DTU is an interactive pen display
2. DTH is also an interactive pen display but comes with touch capabilities as well
3. Allows you to easily scroll through a document, mark it up, highlight and zoom in and out
4. Multipurpose functionality: signature capture, form completion, ad displays, etc.
5. No charging needed and no data loss risk as no data is stored on the device
6. Saves on paper process
